Hi David,

I live at the top of Beachwood and as you know helicopters have been over our heads for almost 3 hours now tracking and finally actually arresting someone who climbed the Hollywood sign.

Even before I heard the choppers, I heard the drone filming this stunt and wondered who was filming and creating a nuisance.

But it's turned into more than that. He was staging a stunt for his youtube channel and even had people using drone(s) to film him.

And why not? After all the other climbers posted their climbs of the sign in youtube, with zero serious legal impact on them, or serious enforcement to get them breaking the law, it must seem harmless fun.

How much did this cost us? 10K 20K and counting ??

We have warned you this will get worse and safety will deteriorate until someone dies and/or the hills are destroyed by fire and many people die.

You say "safety first"?

Over the past month, as a daily runner in the hills, I have seen countless cars illegally parked cars with no enforcement and many, many smokers, and trespassers and people releasing (pissing, even women) themselves in public..

I myself have called the rangers warning them of people climbing to the sign and waited for some helicopters and enforcement to come.

After 30 minutes, none ever came, and I left and kept on my run.

The rangers presumably have a log of my call and I have it on my cell phone.

This guy sat there and waved a flag on top of the sign that read "I am back!"

He then waited until attention was paid and climbed up and down the sign waving the flag, and he would be on the news.

We are a ticking time bomb up here.

You say "safety first"?

What?? When does this start actually?

I have things only get worse. As all of us have who pay attention to the increasing dangers.

I know you are doing your best and face many constituents with various desires.

But reality marches on regardless of political needs.

I urge you to double down right now on your efforts for "safety first" and help us ALL avoid disaster.

In NYC and all over the world landmarks are stringently protected and seriously enforced.

6/29/2016

City of Los Angeles Mail - Beachwood Drive Dangerous

Not us, We are wide open, and we are even on the news that we are wide open.

What will it take to enforce safety first?

Thank you.

Geo

James Mv.

Commander Palka, welcome back to Hollywood. Will you personally look into this and help us before someone dies up here? The CM will not. Streets adjacent to the sign need closure as continued violation of the law such as the example below persist.

If a City Department does not step up this will end in death and that will be sad day for all, and an unneeded expensive day for the City of LA, likely via litigation for liability.

Rest assure that many copy cats will see this circus on Eye Witness News tonight, and more trouble will be headed our way.

Thank you
